NURSING SERVICES

This facility has provided high quality skilled nursing care for over 40 years. Each shift is staffed with Registered Nurses, Licensed Practical Nurses and Certified Nursing Assistants to meet our residents' needs. Our nursing staff's approach to each resident is caring and compassionate. We provide a range of services covering both short and long term care.

Lounge, with Fire Place and cozy seating, is favorite spot for outdoor viewing by residents.

All of the facility's 206 beds are Medicare & Medicaid licensed and certified. Private and Semi-Private rooms are available.

Our inpatient rehabilitation programs offer services to help patients reduce physical and mental limitations caused by conditions such as stroke, neurological disorders, spinal cord injury, head injury, arthritis, serious fractures, aftercare therapy for joint replacement surgery or loss of limb. We offer both short term and long term care services.

Occupational Therapy

Helps gain independence in self-care skills including feeding, dressing, bathing and homemaking.

Physical Therapy

Helps gain independence in mobility skills including getting in and out of a bed and chair, walking or using a wheelchair, and going up and down stairs.

Speech/Language Therapy

Assists with listening, reading, speaking, writing and thinking skills, and also provides therapy for swallowing disorders
